ROPE™ -3	2-PIECE COMPOSITE	2⅝"	EBB5RPE3	30" 31" 32" 33" 34"

- **Two-Piece Composite Construction:** Composite handle + composite barrel creates a larger barrel, with the biggest sweet spot and an unmatched feel
- **3D Ropecoil Composite:** Easton's patented 3-dimesional composite rope is wrapped 360 degrees, vertically, around the center of the barrel at the sweet spot. Surrounded by optimized thickness composite sections toward the end cap and taper to maximize performance outside of the sweet spot, creating the widest max performance area across the entire barrel. This unique design governs performance set directly at the performance limit.
- **Swing Weight:** Light swing weight feel with a lower MOI, produces more bat speed and barrel control
- **ConneXion Max®:** Utilizes an elastomer connector to interlock the handle to the barrel, eliminating vibration for optimal feel
- **Optiflex Handle:** Driven by ongoing research and feedback from some of the game's best players, each bat size's handle flex is specifically engineered to the elite BBCOR athlete
- **Power Boost Soft Knob:** Provides hitters with more leverage, while reducing vibration and improving comfort for the bottom hand
